

Dear Chairman Bishop,
Dear Chairman LaMalfa,
Dear Representative Denham,
Dear Representative Huffman,

I oppose HR 597. I live near the Lytton land in or near the town of Windsor, Sonoma County, California. I will be very negatively impacted if HR 597 moves land into trust for the Lytton.

I oppose HR597 for the following reasons:

Rep. Jeff Denham is not my representative. He does not represent my district. His district is 150 miles away. He has received +\$80,000 in contributions from the Lytton.

This bill is a Carcieri-fix for the Lytton. They already have an open 2009 Bureau of Indian Affairs application. The Lytton were not a tribe in 1934, per Carcieri v. Salazar, the Department of the Interior lacks the authority to put their land into trust.

This bill would enable the Lytton to flout local zoning. The housing listed on this bill is non-compliant. Their documented plans for large commercial development (200 room hotel, 200,000 case a year winery) are not even mentioned in the bill.

The 2016 Congressional Report 114-633 for H.R. 2538 states that "the Natural Resources Committee has received a relatively large number of communications from the residents of Windsor, California in opposition to the bill." I still oppose HR 2538 and HR597.

Please listen to my concerns and do not approve HR597.

Thank you,
